PREFACE

This volume is the seventh annual catalogue of Ontario Government publications. It is a cumulation of the monthly checklists for 1978. Some publications which were restricted in their distribution to the public and which were therefore omitted from the monthly list, have been included in order that the bibliography might accurately reflect the total publication output of the various government ministries and agencies.

The 1978 bibliography represents a partial departure from the established practice of the past six annuals. For the first time, and at the request of numerous libraries, all publications that have been depository items during the year 1978 are marked with a "D" as in the **Monthly Checklist.** Also, the availability and price of all publications distributed through the Publications Service is indicated. On the other hand, no attempt has been made to indicate the availability or price of publications that may only be obtained from the issuing body.

A list of members of the Queen's Printers' Association of Canada has also been included in the preliminary material for the first time this year.

Information regarding ordering procedures and price of publication is given in the **Monthly Checklist**, which is available free of charge from the Publications Service Section, Printing Services Branch, 880 Bay Street, 5th Floor, Toronto M7A 1N8. Also available at no charge is a new quarterly publication, **Catalogue des publications du gouvernement de l'Ontario en français.**

Many publications listed in the annual catalogue are available for consultation at depository libraries for Ontario Government publications and a list of full depository libraries has been included to assist the user in locating them. The term "full depository" means that the library automatically receives all publications in the monthly checklist which are designated by a "D". There are also selective depository libraries throughout the province, which receive any "D" items they specifically request. These libraries have not been listed, as their collections would be less complete.

The material is arranged alphabetically under issuing body with annual reports listed first. Government agencies are listed under the ministries to which they report.

Maps, posters, press releases, speeches, and publications of an internal nature have not been included. Reprints of articles written by government officials and appearing in non-government publications have not been included, unless they have the imprint of a ministry.

The annual catalogue was compiled in the Bibliographic Services Centre, Printing Services Branch by Mance G. Carbery, Administrative Manager,

Publications Service with the assistance of Eveline Marron, Catalogue Librarian, Bibliographic Services, E. Pulver Zajfman, Bibliographic Clerk, Bibliographic Services and Caorann Sowton, OCAP Trainee.
